

PSP MCMIS Data Update

The FMCSA Pre-Employment Screening Program (PSP) Website has been updated with the **November 27, 2020** snapshot from the Motor Carrier Management Information System (MCMIS). The term "snapshot" refers to data captured from the MCMIS database as it appears on a particular date.

Request Reports Today

You may request a prospective driver's latest PSP data at: <https://www.psp.fmcsa.dot.gov>.

PSP records include a 5-year crash and 3-year inspection history for commercial drivers.

Account holders may access a PSP record during the hiring process after the driver's consent has been properly obtained.

Thank You,

PSP Team
