Friday Safety Brief

May 9 2025

International Roadcheck

International Roadcheck is an annual three-day event when CVSA-certified inspectors conduct compliance, enforcement and educational initiatives targeted at various elements of motor carrier, vehicle and driver safety.

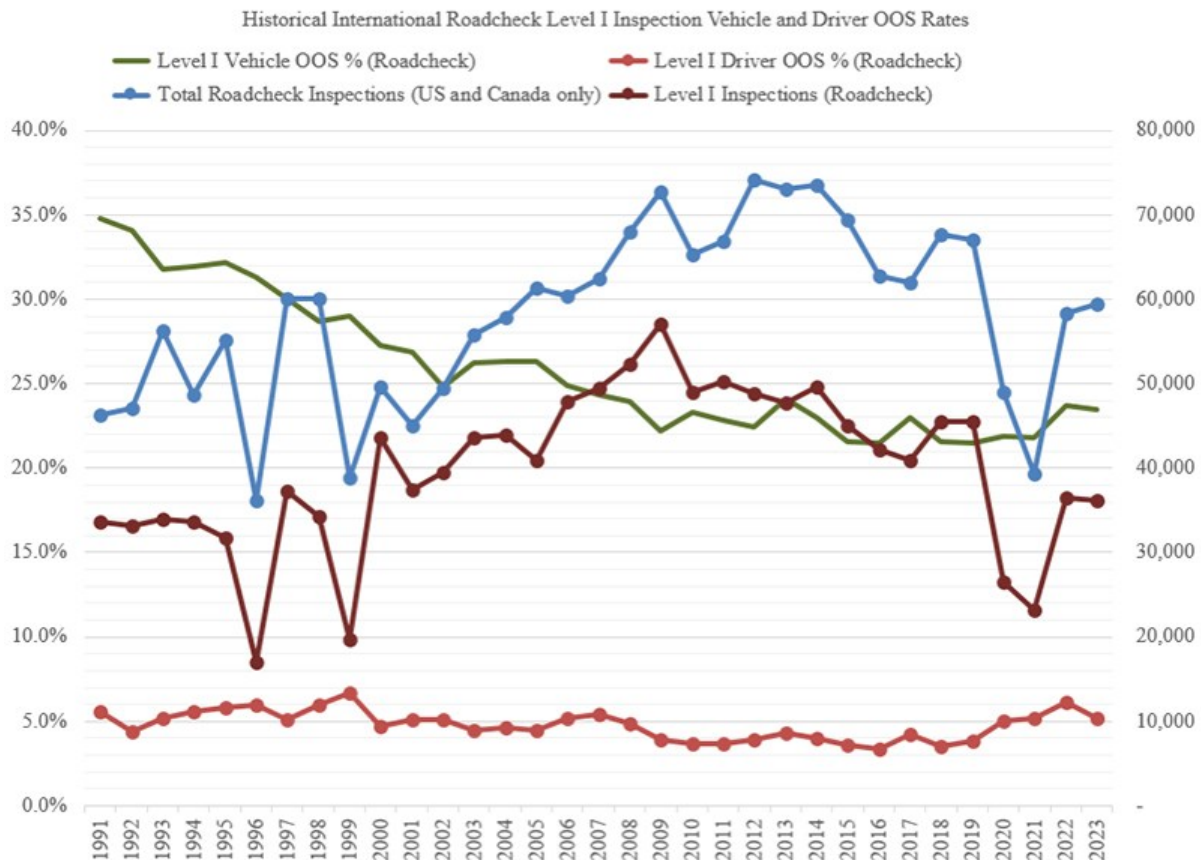

International Roadcheck is the largest targeted enforcement program on commercial motor vehicles in the world, with nearly 15 trucks or buses inspected, on average, every minute across North America during a 72-hour period.

Since its inception in 1988, roadside inspections conducted during International Roadcheck have numbered more than 1.4 million. Roadcheck also provides an opportunity to educate industry and the general public about the importance of safe commercial vehicle operations and the roadside inspection program.

CVSA sponsors International Roadcheck with participation by the Federal Motor Carrier Safety Administration, Pipeline and Hazardous Materials Safety Administration, Canadian Council of Motor Transport Administrators, Transport Canada and the Secretariat of Communications and Transportation (Mexico).

The next International Roadcheck is scheduled for May 13-15, 2025.
